

Cabrillo is a universal log submission format created by Trey Garlough, N5KO. But each contest has his own specifications for electronic log. CQMM DX Contest use the Cabrillo version 3.0 only. As best we know, only N1MMLogger Contest Software has full support for CQMM DX Contest and correct log format.

When you send in your log, a software running on the server (called Robot) will check all information as Category, QSO data, Exchange and will send back to you a report "RESULT OF YOUR LOG SUBMISSION", so you will know if your log is fine or has problems.

Bellow, the description for all Cabrillo file fields and specifications for CQMM DX Contest
ATTENTION: DO NOT TRY TO EDIT YOUR LOG FILE BY HAND.

START-OF-LOG: version-number X.X

Must be the first line of the log submission. The cabrillo shall be version 3.0, any other version will not work with the robot!
